

## Becoming a supporter of the 4th International RREUSE Conference

The digital era of social enterprises: trends and opportunities within the circular economy

16-17<sup>th</sup> November, 2022

Vienna, Austria

Political and economic interest in favour of more re-use and repair is gathering tremendous momentum. Game-changing digital technologies helping mainstream the secondhand industry are developing fast. With social enterprises recognised as pioneers in circular job creation by the European Commission, taking stock of these key digital trends in aiding their development is crucial to ensure a just, job rich, and inclusive green transition.

On 16-17th November 2022, [RREUSE](#) together with its partner [RepaNet](#), is delighted to be holding its 4<sup>th</sup> International Conference focused on the digital era of social enterprises: *trends and opportunities within the circular economy*.

This event will be truly unique. Expect to be surrounded by a vibrant social enterprise community sharing their insights, thoughts and views on digital drivers transforming the re-use sector as we know it. Online sales, artificial intelligence and the skills necessary for this transformation will all be under the spotlight of this two-day event, alongside exciting social and circular site visits and much more!

Gathering social entrepreneurs, local, regional and international policy makers, municipalities and private sector representatives, the event will provide for excellent networking opportunities, a dynamic environment and plenty of positive energy! For a taste of what is to come, take a quick look at our last in-person conference from 2019 in Pamplona, Spain [here](#).

If you are interested in sponsoring<sup>1</sup> this exceptional event, RREUSE warmly encourages you to get in touch. You will find the sponsorship structure we are offering below. We would also be very much open to having a conversation with you about potential in-kind support in Vienna.

On behalf of RREUSE and RepaNet we thank you sincerely for your consideration in sponsoring and supporting our event.

*[RREUSE](#) is the European network of social enterprises active in the field of re-use, repair and recycling, federating over 1,000 individual social enterprises across its 33 members in 28 countries. Our wider network handles in excess of 1,1 million tonnes of goods annually employing over 105,000 individuals, the majority of whom are at risk of socio-economic exclusion.*

*[RepaNet](#) is the Austrian social and circular enterprise network with 43 member enterprises providing long-term employment for people with difficulties in the regular labour market. The majority of these organisations work with textiles, furniture, and electronic equipment. RepaNet is member of RREUSE.*
