ReWEEE WORKSHOP – Developing partnerships for e-waste prevention, preparing for re-use and recycling

Wed. 15th May 2019

Centrum Zarządzania Innowacjami i Transferem Technologii, ul. Rektorska 4, 00-614, room number 1.01, Warszawa

RREUSE, the European network of social enterprises involved in repair, re-use and recycling activities invites you to a workshop on developing partnerships to improve the management of e-waste (WEEE) in Poland, with a special focus on re-use and repair.

At the occasion of the **EU Green Week**, this workshop will showcase early results of the European project **ReWEEE**, led by **Electrocycle** (the Greek official take-back system for the Management of the WEEE), which aims to develop a WEEE prevention culture in Greece, and share expertise with Polish stakeholders involved in WEEE collection, prevention, repair and recycling.

The working languages of the workshop will be **English** and **Polish**.

Please register here (<http://form.news/workshop6>). You can visit the page of the event **here** or go on the **Facebook page**.

Should you have any questions, please feel free to contact Mathieu Rama (mathieu.rama@rrreuse.org – **Tel: +32486037896**).
